

Press release 11th of September 2018 (For Immediate Release)

In collaboration with GAEU Horizon 2020 Centre of Excellence

H2020 SME Instrument: New Phase 1 record by GAEU Consulting

In this year's second Horizon 2020 SME Instrument Phase 1 call (cut-off 3rd of May), GAEU Consulting wrote **eight approved applications**.

Tomasz Wasik, head of GAEU Horizon 2020 Center of Excellence, comments:

- The granted applications were in Life Science and ICT / Engineering. This confirms our strong ability in these technology areas. Hereby we also improved our own Swedish record with a total of three granted applications in a single cut-off.

Approved 50 000 Euro by the EU Commission

- **CytaCoat.** Antibacterial coating (life science)
- **Colzyx.** Wound dressing (life science)
- **Ziccum.** Drying of antibiotics (life science)
- **HUD Solutions.** Head up display (ICT)
- **MSE Omnifinity.** Virtual Reality floor (ICT)
- **Advrty.** VR/AR advertisement (ITC)
- **Minut.** Innovative monitoring (Engineering)
- **Cognibotics.** Automation (Engineering)
